

# Introducing

nuova  
**SIMONELLI®**

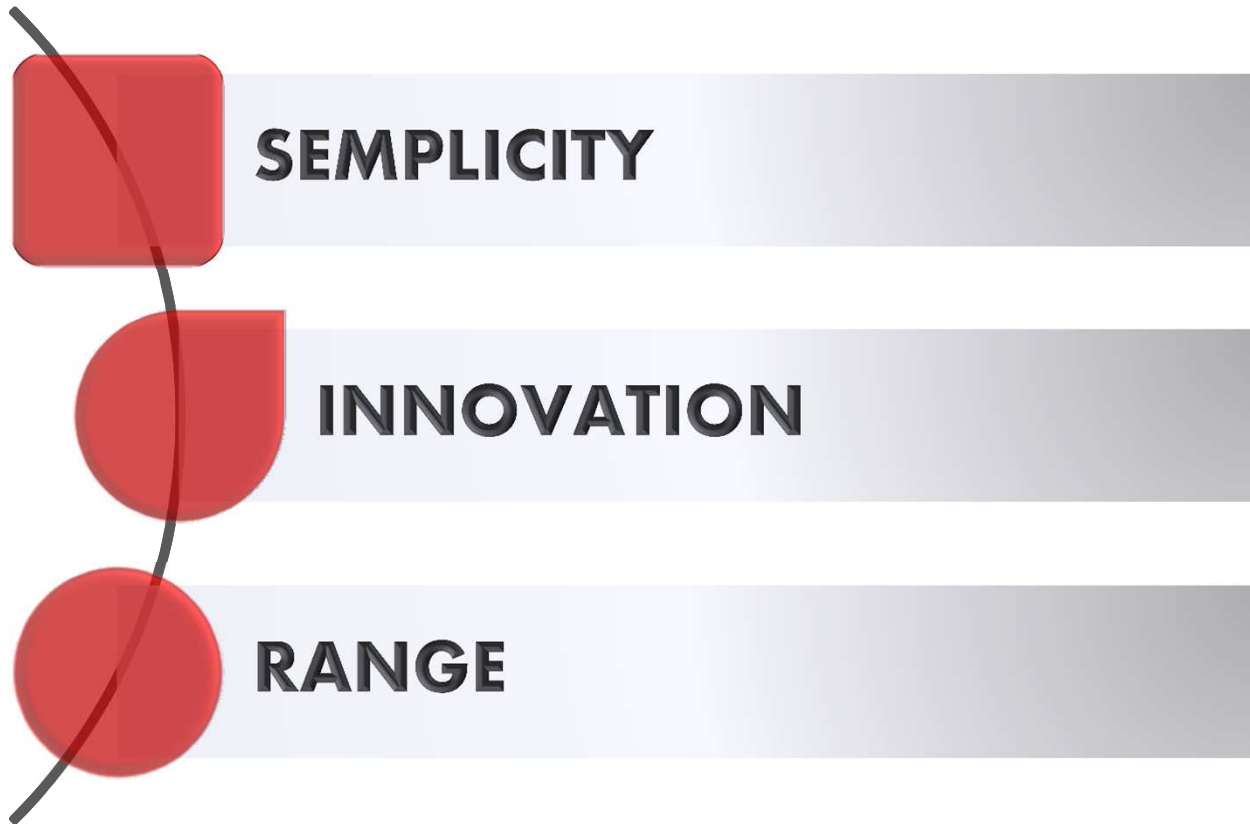

**Nuova Simonelli**  
was confirmed  
once again as the  
official coffee  
machine of the WBC.  
A prestigious goal, an  
indication of Customer  
centricity and superior  
quality.  
In addition to having all  
the advantages of its  
predecessor  
(SIS, ergonomics, ...),  
Aurelia II has many  
interesting new  
features  
that point towards new  
and more  
ambitious horizons.

# INDEX

SEMPPLICITY

# The Best Ever Aurelia

The coffee  
extraction  
becomes  
Excellence

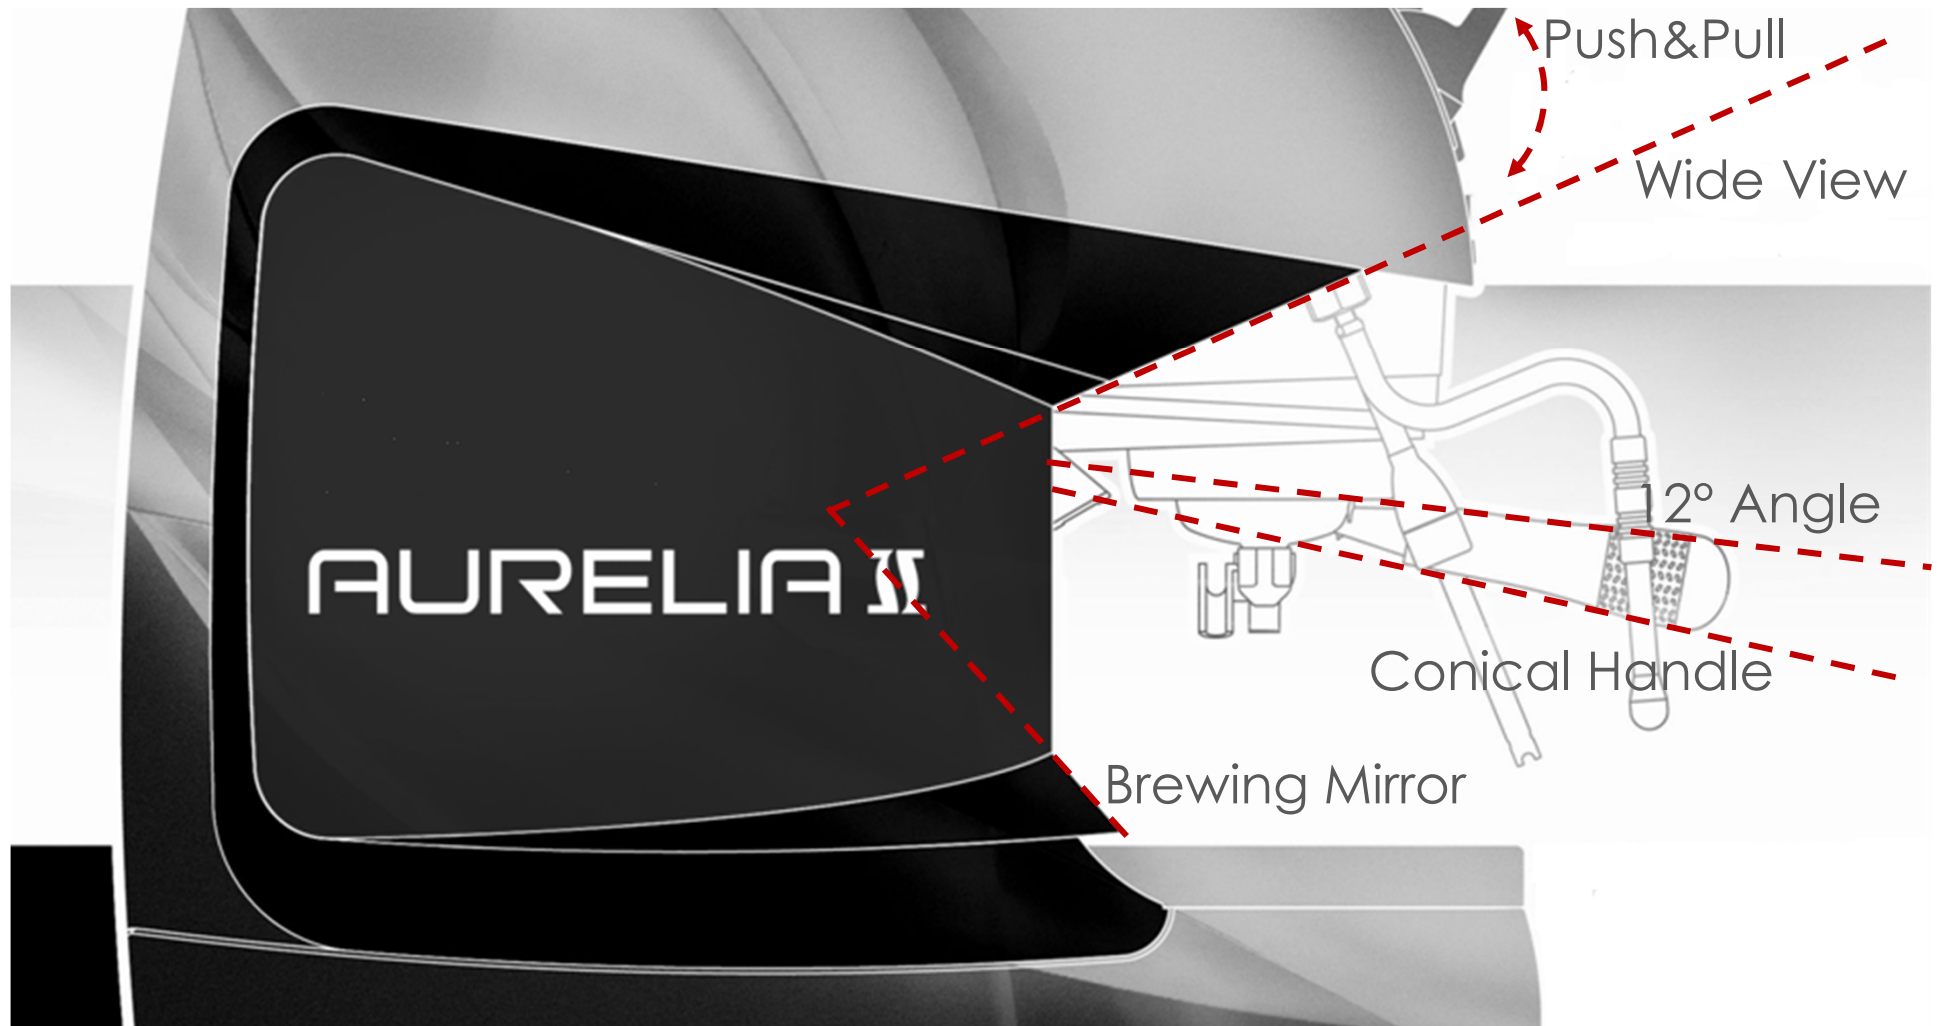

SEMPPLICITY

# ERGONOMY

Over the solutions of Aurelia

# MORE ERGONOMY

Milk Spot Light: Barista can visually control the foaming phase easily

Brewing Mirror: Barista can visually control at 1<sup>st</sup> sight the brewing process

Cool Touch Wand: the steam wands is safe and it is more hygienic, because milk does not create scaling

SEMPPLICITY

# Automatic Washing

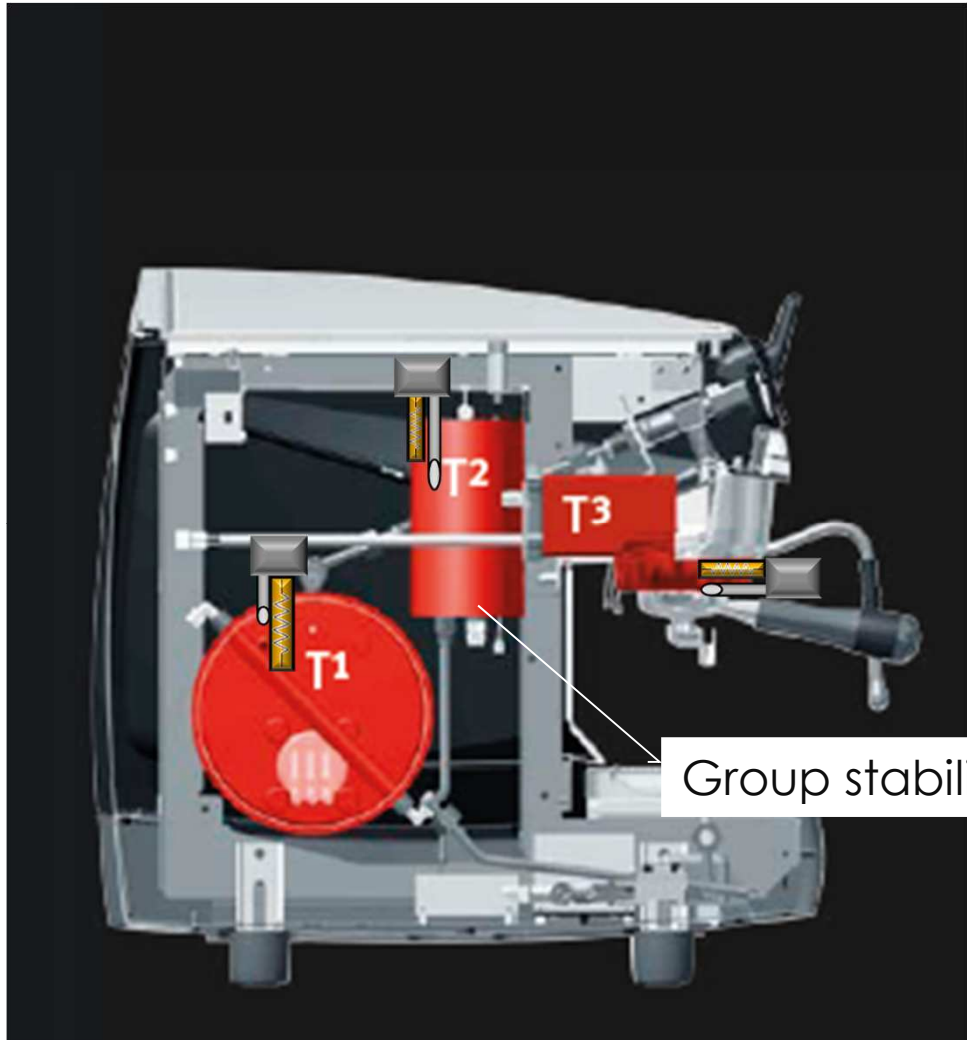

The Automatic Washing Cycle can be done on each group separately. Barista does not need to wait the closing time of the shop to clean the machine

INNOVATION

T<sup>3</sup>

# What it is and how it works

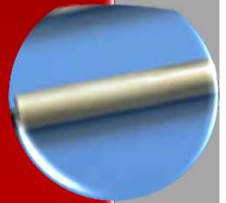

Group stabiliser

## System

PID Electronic Board

Digital Probe Temp.

Electric Heating

# Main Benefits

**RELIABLE:** the T<sup>3</sup> active control management enable the system to be always balanced. It is equally ready and efficient under any working conditions delivering consistency.

**ACCURATE:** the T<sup>3</sup> thanks to the three dimensional temperature active control drives by P.I.D. injects precisely the right amount of energy enabling the system to meet perfectly the settings.

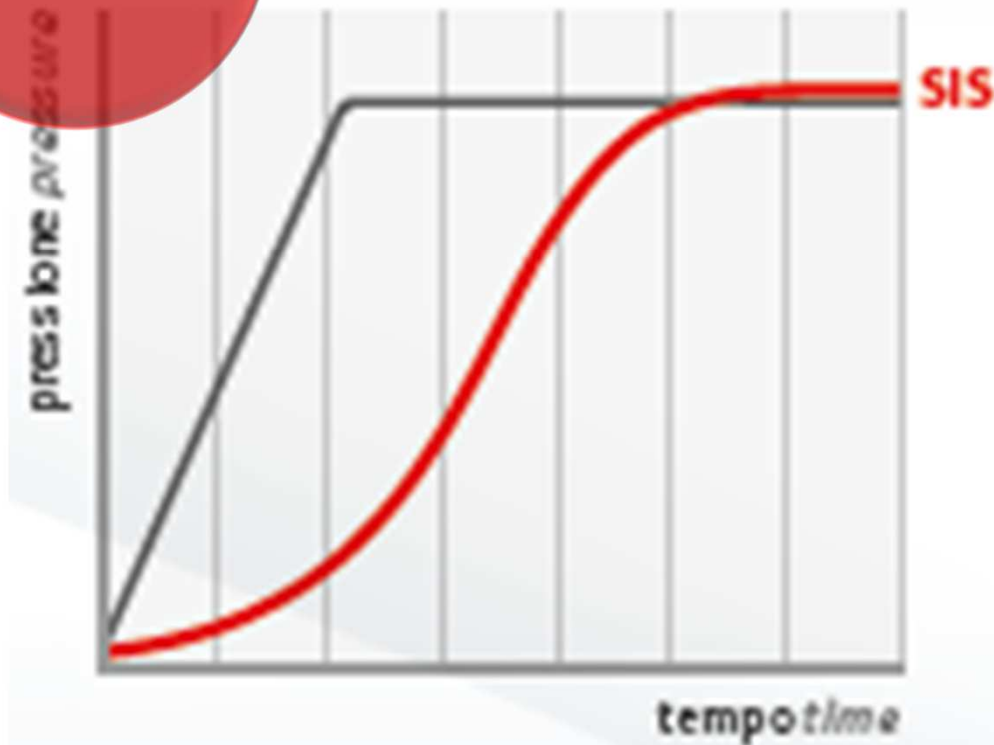

**FLEXIBLE:** the T<sup>3</sup> controls every single brewing unit electronically and independently. It is very elastic and accelerates instantly the response delivering always the expectations.

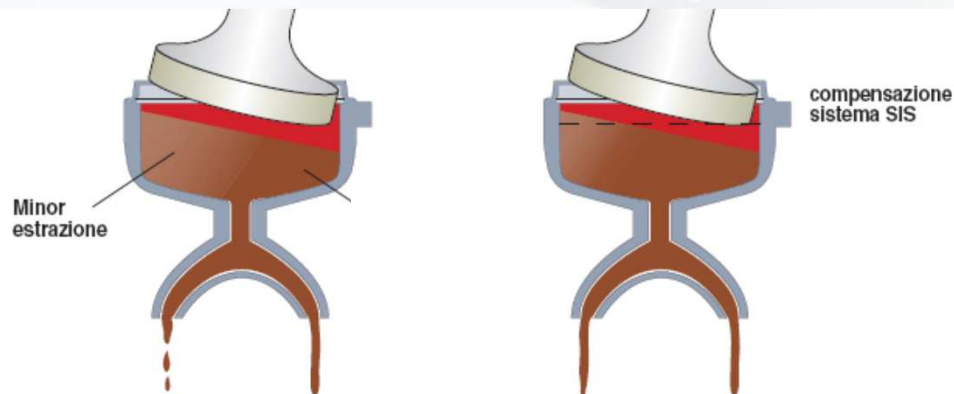

**ECO-FRIENDLY:** the T<sup>3</sup> enhance the the energy efficiency reducing about 30% energy consumption. We're developing fully recyclable coffee machines.

INNOVATION

# S.I.S. Advantages

Brewing compensation  
Less mistakes always  
good crema and body

INNOVATION

# Auto-Steam System

## Optional

**Reliable:** it always works.

**Easy:** everybody can make a good cappuccino.

**Safe:** the wand remain cold.

**Clean:** very simple to clean and the outside surface is much more clean beacuse the milk does not stock.

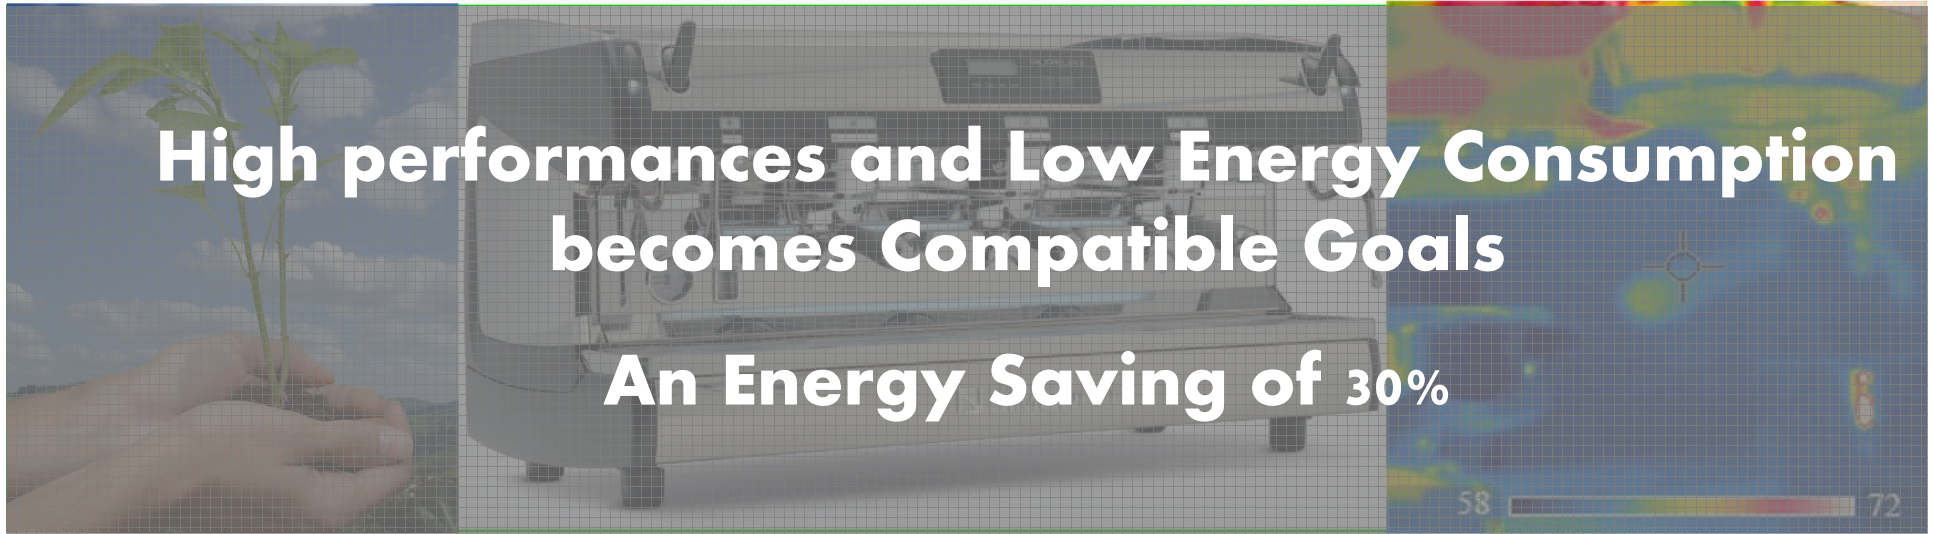

**Stable:** all cappuccinos have the same quality.

# T<sup>3</sup> ECO FRIENDLY

**High performances and Low Energy Consumption  
becomes Compatible Goals**

**An Energy Saving of 30%**
